PROFILE

Experienced, innovative, and compassionate Full Stack WordPress Developer with over 5 years of expertise in custom themes, plugins, SEO, and UX optimization. Skilled in front-end and back-end development using HTML, CSS, JavaScript, PHP, React, and MySQL, ensuring security and performance.

WORK EXPERIENCE

● R+L Carriers Web Developer 2022 - Present

- Developed, built, and maintained primary websites and platforms for hotels, dining, and services within the World Equestrian Center ecosystem, ensuring accessibility compliance.
- Designed, built, maintained, and updated custom WordPress plugins using PHP, JavaScript, and React to support business needs.
- Optimized websites and individual pages for SEO, improving search engine visibility and organic traffic.
- Conducted performance testing, managed staged deployments, used Git for version control, and worked within an Apache-based development environment.
- Managed MySQL databases and API-driven data integrations to support reliable, real-time data access.

● Fifty Five Studios Founder & Owner 2021 - Present

- Built and maintained websites for various clients across industries, providing tailored solutions and ongoing support.
- Worked across multiple website builders and hosting platforms, including WordPress, Shopify, Webflow, and Bluehost.
- Created customized website solutions aligned with client objectives, emphasizing functionality, branding, and seamless integration with their operations.

EDUCATION

● Ball State University MS in Information and Communication Sciences

- Developed knowledge of routing, switching, network applications, coding, and security.
- Solved complex problems in the information and communication technology field.

● Ball State University BS in Marketing

- Ball State Football Player
 - Academic All Mid-American Conference
